

Make a

Peg Pony!

1. Cut out a horse template and glue it to a piece of cardboard. Cut around the horse. Please ask an adult to help you!
2. Place your template on another piece of card. Trace around it, then carefully cut it out.
3. Paint your horse (or colour him in with felt tips) and then wait for it to dry. You can draw on a mouth and some eyes, or you can buy some googly eyes from a craft shop.
4. When your horse is dry, take your hole punch and put a hole in his rump. Punch holes along his neck too. Then, thread the wool through the holes to give your horse a nice mane and tail!
5. Take two clothes pegs and paint these to match your horse (not forgetting the hooves). Attach them to your horse
- 6. Voila! Now you have your very own peg pony!**
