

Make your own...

# Horse and foal sock puppets

## You will need:

- Socks (big or small)
- Scraps of wool
- Felt or scraps of fabric
- PVA glue
- Scissors
- Googly eyes
- Pegs

5

"This could get messy! Wear old clothes and an apron!"

1

Cut out two different colours of felt or fabric into the shape of ears, making one bigger than the other. Stick the smaller one on top of the bigger one.

2

Squeeze a line of PVA glue along the bottom of the ear, then fold in half and hold in place with a peg. Leave to dry.

3

Cut out two circles from your felt or fabric and stick onto your sock using PVA – these are nostrils! You also need to use the PVA to glue down the googly eyes.

4

Cut your wool into small bits and using the PVA glue onto the sock, use smaller bits for a fringe and longer pieces for the mane! Once the ears are dry stick them on to the sock.

The foal is exactly the same but made using a small sock. You could make some in different colours so that you have a herd of sock horses! Don't forget to send a pic to [mini@redwings.co.uk](mailto:mini@redwings.co.uk)!
